

# TILL. MILL. DISTILL.

## Wildcat Distilling Co.

### WEBSTER CITY WELCOMES TASTING ROOM TO THEIR DOWNTOWN DESTINATIONS

On the family farm near Duncombe, we grew up playing around a natural sandstone formation, "Wildcat Cave," deep in the timber. Known as a den for bobcats & mountain lions, the cave also serves as a source for amazing local lore. Hearing stories of the speakeasy that once stood on top and how Bonnie & Clyde once hid there captured our imaginations. Whether or not the stories are true, one thing has always been clear, wildcats, whiskey & our land are tied. Thus came the idea for Wildcat Distilling, Co., where we fulfill our mission to honor the past while creating a New Iowa Legend with our Till, Mill, and Distill philosophy. We grow as many of our ingredients as we can right on our farm, mill it onsite, and distill it there as well. Even our cattle benefit from the spent mash, or "Spicy Corn" as we lovingly call it.

We believe that being genuine in what we do is what defines a great whiskey experience, and we think our customers appreciate that, too. Try a drink to taste the purity of our process, grown

from these local farm fields. From our farm, to your glass.

If you'd like to learn more about our whiskeys and distilling techniques used to create the different flavors that make them unique, get your tickets to our Guided Whiskey Tastings.

Welcome to Wildcat Distilling, Co. A new Iowa Legend. Born on an old Iowa Farm, and built from a long Family Legacy.
